

# EarthWatch Inc.

## End User License Agreement

### ■ Introduction.

This End User License Agreement ("EULA") is between EarthWatch Inc. ("EarthWatch") and the National Aeronautics and Space Administration ("NASA"), the Purchaser of this license. This license governs NASA's use of the data products or documentation purchased under NASA Contract No. NAS13-98047.(the "Products"). By using the Products, NASA agrees to be bound by the terms of this EULA. If NASA does not agree with these terms, promptly return the unused Product to EarthWatch and NASA's money will be refunded in full. The Products include both EarthWatch data and data products, and the data and data products of third parties that are licensed to EarthWatch for distribution.

### ■ Scope of License.

**A.**With regard to the Products known as the "Indonesia data set", EarthWatch grants NASA a limited, non-transferable, non-exclusive license to use the Products in the manner set forth in this license. NASA's use of the Products must conform to the following restrictions: (1) the Products may only be used for NASA's internal purposes and the internal purposes of the United States Department of Defense ("DOD") under the terms and conditions set forth in this EULA. If NASA wishes to distribute the Products NASA must obtain a different license from EarthWatch; (2) use of the Products is confined to NASA and DoD employees and contractors, researchers affiliated with Earth Sciences Enterprise (ESE) through grants or other formal mechanisms, and researchers in the international community with whom NASA has data exchange arrangements; (3) the Products may be used on one or more information processing machines at one or more geographic locations; and (4) NASA and DoD may create, distribute and publish Derivative Works (as defined below) for any of their own purposes whatsoever.

**B.** With regard to all other Products, EarthWatch grants NASA a limited, non-transferable, non-exclusive license to use the Products in the manner set forth in this license. NASA's use of the Products must conform to the following restrictions: (1) the Products may only be used for NASA's internal purposes, if NASA wishes to distribute the Products NASA must obtain a different license from EarthWatch; (2) use of the Products is confined to NASA employees and contractors, researchers affiliated with Earth Sciences Enterprise (ESE) through grants or other formal mechanisms, and researchers in the international community with whom NASA has data exchange arrangements; (3) the Products may be used on one or more information processing machines at one or more geographic locations; and (4) NASA may create, distribute and publish Derivative Works (as defined below) for any of its own purposes whatsoever.

- **Derivative Works.** Derivative Works for the purpose of this license are defined as any image, representation or alteration of the Products received from EarthWatch from which the Products cannot be reverse engineered. Examples of Derivative Works include thematic hazard maps, fly-through videos, vector-based road center lines, building or feature outlines, thematic mapping class boundaries, or other vector-based data extraction results. Derivative Works consisting of hardcopy prints and other non-manipulative forms of Products may be used for scientific review and the ESE mission with the following legend "© year of publication, EarthWarch and/or its suppliers, Longmont, CO, USA. All rights reserved."
- **Restrictions.** This EULA is not a license to disclose, publish, sell, assign, lease, sublicense, market or transfer the Products, or to use the same in any manner or for any purpose not expressly authorized by this EULA. EarthWatch reserves all rights not expressly granted by this EULA. The Product may be used only by NASA and not by any other government agency except as defined above. NASA acknowledge that the Products and the data within them are proprietary to, copyrighted by, and contain trade secrets of, EarthWatch or its suppliers. Unauthorized reproduction, distribution, or display of the Products in any manner not expressly authorized herein is prohibited. NASA agrees to keep confidential and use their best efforts to prevent and protect the contents of the Product from unauthorized disclosure or use. NASA will advise EarthWatch immediately upon discovering evidence of a breach or threatened breach of the terms of this license by any party.
- **U.S. Government End Users.** The Product is a "commercial item" as that term is defined at 48 C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer software" and "commercial computer software documentation," as such terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 (Sept. 1995) and 48 C.F.R. 227.7202-1 throughout 227.7202-4 (June 1995), all U.S. Government End Users acquire the Products with only those rights set forth herein. Contractor/manufacturer is EarthWatch Incorporated, Longmont, Colorado, USA. If the Products or any Derivative Works are used in connection with the performance of any government contracts or subcontracts, NASA shall ensure that (i) the Products shall not constitute a deliverable under any governmental contracts or subcontracts; and (ii) in no event shall a government entity acquire any rights other than those provided in this Section.
- **Limited Warranty and Disclaimers.** EarthWatch warrants for sixty (60) days after the delivery of the Products that the data delivered will be of the area of interest ordered and the media used to carry the data will be free from physical or material defects. EarthWatch's sole liability under this limited warranty shall be to replace the media if it (not the software or data encoded thereon) is defective and NASA shall return such to EarthWatch within sixty (60) days of delivery. Except for the limited warranty specified herein, the Products are provided without warranty of any kind, and all warranties or merchantability and fitness for a particular purpose are expressly excluded. EarthWatch does not warrant that the products will meet NASA's needs or expectations or that use of the Products will be error free or uninterrupted. In no event shall EarthWatch be liable for any claim or loss incurred by NASA (including without limitation compensatory, incidental, indirect, special, consequential or exemplary damages), irrespective of whether EarthWatch has been

informed, knew, or should have known of the likelihood of such damages. This limitation applies to all causes of action, including without limitation breach of contract or warranty or tort. If EarthWatch's limitation of liability set forth in this agreement shall for any reason be held unenforceable or inapplicable, NASA agrees that EarthWatch's liability shall not exceed fifty percent (50%) of the license fees paid by NASA to EarthWatch with respect to the Products at issue.

- **Term and Termination.** This EULA shall become effective upon use of the Product and shall continue in force until terminated as provided herein. This EULA shall terminate immediately if NASA fails to comply with any of its terms. Upon termination of this EULA, NASA shall deliver to EarthWatch or confirm NASA has destroyed all copies of the Products in NASA's possession.
- **Miscellaneous.** This EULA is the complete and exclusive statement between NASA and EarthWatch with respect to the use of the Products and may be amended or modified only in a written instrument signed by a duly authorized representative of EarthWatch. If any provision is determined to be invalid or unenforceable, the remaining provisions of this EULA shall continue to be valid and enforceable. Neither this EULA nor any of the rights granted by it may be assigned or transferred by NASA without the prior written consent of EarthWatch. This restriction on assignments or transfers shall apply to assignments or transfers by operation of law, as well as by contract, merger or consolidation. NASA shall be solely responsible for obtaining any and all required government authorizations, including without limitation, any export or import licenses and foreign exchange permits. Sections 4, 5 and 6 shall survive expiration or termination of this EULA.
